DEGREASING AND DISINFECTION

Neutral concentrated product that combines enzymatic biological properties with degreasing properties and detergents that enable more effective degreasing for all types of surfaces quickly, easily, and efficiently. The product meets the European Eco-label requirements.

PROPERTIES

Great cleaning power, quickly removing dirt safely and efficiently.

Concentrated product, allows for great dilution.

Neutral, phosphate-free product which makes it safe to use and prevents eutrophication of waters.

APPLICATIONS

Daily cleaning in industrial facilities (production and administrative zones) and communities (hotels, schools, residences, administrative centers).

Suitable for all types of floors, patios, mosaics, tiles, ceramics, stoneware, etc.
